

BROOME INTERNATIONAL AIRPORT COVID-19 UPDATE

MONDAY 16 MARCH 2020

Broome International Airport (BIA) advise that airport operations and schedules are continuing as normal. BIA is working closely with airlines, regulatory bodies, industry, local stakeholders and Government in relation to COVID-19, and is monitoring the situation very closely.

Cleaning and sanitation levels at the airport are being kept to a very high level, and hand sanitiser is being provided for all people who visit the airport. The airport is encouraging everyone to wash their hands regularly and thoroughly.

The airport has a good understanding of, and is in regular close contact with, our service providers and supply chains to ensure that airport operations are not compromised moving forward.

We would like to assure everyone that the airport is open for business, and taking every precaution necessary, as we all navigate our way through these challenging times.

We will continue to provide regular updates as required.
