Aircraft Classification Number (ACN) _____ No. of Movements _____

On/Between _____ Purpose _____

Terms and Conditions

1. Current published pavement information can be found in En Route Supplement Australia (ERSA).
2. Any Notice to Airmen (NOTAM) takes precedence over this pavement concession.
3. When using the runway, taxiing aircraft are to remain on the central 30 metres.
4. Aircraft above 20,000 KG MTOW are to turn at the turning nodes only.
5. All turns to be made at minimum speed and maximum radius to avoid pavement damage.
6. The aircraft operator will be liable for costs associated with pavement damaged directly attributable to not complying with the above operational requirements.
7. Pavement Concession, if approved, will be on the basis that Broome International Airport will not accept and liability for any damages to the aircraft or its occupant which may result from the Pavement Concession exceeding the published pavement rating in ERSA.
8. Approval of further Pavement Concession is subject to no damage occurring following each operation.
